ABOUT ME

An enthusiastic fresher willing to work for an organization which provides an opportunity to improve my skills and knowledge to grow along with the organization's goals.

INTERNSHIP

Web Development

Verzeo EduTech / Remote / Jan'20 – Mar'20

- Created User Interfaces using HTML5, CSS3 and modern JavaScript frameworks.
- Created testing code for mobile applications and other we-based applications.
- Used automotive technology to optimize and repair the corporate website.

PROJECTS

RING MODE

It is an android application which is developed using Java & SQLite with ADT (Android Development Tools). It used for changing phone modes from silent to ring or vice-versa, just by sending a single sms.

INTRUDER ALERT SYSTEM

It is an IOT Based Project using Raspberry Pi-3B. It identifies the intruder's presence, capture and transfers the video through email automatically to homeowner to recognize the intruders.
