## PROJECTS

### RING MODE

Ring Mode is an android application which is developed using ADT. It is used for changing phone modes from silent to ring or vice-versa, just by sending a single sms.

### INTRUDER DOOR ALERT SYSTEM

It is an IOT based project using Raspberry Pi-3B. It identifies the intruder's presence, capture and transfers the video through email automatically to homeowner to recognize the intruders.

### COLLEGE MANAGEMENT SYSTEM

College Management System is a Java application which allows educational institutions to maintain their academic data conveniently.
